Subpart A—Purpose and Definitions

§ 621.1 Purpose and applicability.

This part sets forth accounting and reporting requirements to be followed by all banks, associations, and service organizations chartered under the Act; the Federal Farm Credit Banks Funding Corporation; and, where specifically indicated, the Federal Agricultural Mortgage Corporation. The requirements set forth in this part are of both general and specific applicability. Certain requirements focus on areas of financial condition and operating performance that are of special importance for generating, presenting, and disclosing accurate and reliable information.

§ 621.2 Definitions.

For the purposes of this part, the following definitions shall apply:

(a) *Accrual basis of accounting* means the accounting method in which expenses are recorded when incurred, whether paid or unpaid, and income is

reported when earned, whether received or not received.

(b) *Borrowing entity* means the individual(s), partnership, joint venture, trust, corporation, or other business entity, or any combination thereof, that is primarily obligated on the loan instrument.

(c) *Generally accepted accounting principles* means that body of conventions, rules, and procedures necessary to define accepted accounting practices at a particular time, as promulgated by the Financial Accounting Standards Board (FASB) and other authoritative sources recognized as setting standards for the accounting profession in the United States. Generally accepted accounting principles include not only broad guidelines of general application but also detailed practices and procedures that constitute standards by which financial presentations are evaluated.

(d) *Generally accepted auditing standards* means the standards and guidelines adopted by the Auditing Standards Board of the American Institute of Certified Public Accountants (AICPA) to govern the overall quality of audit performance.

(e) *Institution* means any bank, association, or service organization chartered under the Act; the Federal Farm Credit Banks Funding Corporation, and where specifically noted, the Federal Agricultural Mortgage Corporation.

(f) *Loan* means any extension of credit or lease that is recorded as an asset of a reporting institution, whether made directly or purchased from another lender. The term “loan” includes, but is not limited to:

(1) Loans originated through direct negotiations between the reporting institution and a borrower;

(2) Purchased loans or interests in loans, including participation interests, retained subordinated participation interests in loans sold, and interests in pools of subordinated participation interests that are held in lieu of retaining a subordinated participation interest in loans sold;

(3) Contracts of sale; notes receivable; and

(4) Other similar obligations and lease financing.

(g) *Material* means the magnitude of an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement.

(h) *Net realizable value* means the net amount the lender would expect to be realized from the acquisition and subsequent sale or disposition of a loan's underlying collateral. Generally, net realizable value is equal to the estimated selling price in the ordinary course of business, less estimated costs of acquisition, completion, and disposal.

(i) *Qualified public accountant* means a person who:

(1) Holds a valid and unrevoked certificate, issued to such person by a legally constituted State authority, identifying such person as a certified public accountant;

(2) Is licensed to practice as a public accountant by an appropriate regulatory authority of a State or other political subdivision of the United States;

(3) Is in good standing as a certified and licensed public accountant under the laws of the State or other political subdivision of the United States in which is located the home office or corporate office of the institution that is to be audited;

(4) Is not suspended or otherwise barred from practice as an accountant or public accountant before the Securities and Exchange Commission (SEC) or any other appropriate Federal or State regulatory authority; and

(5) Is independent of the institution that is to be audited. For the purposes of this definition the term "independent" shall have the same meaning as under the rules and interpretations of the AICPA.

(j) *Recorded investment* means the face amount of the loan increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges, or acquisition costs, and may also reflect a previous direct write-down of the investment.

Subpart B—General Rules

§ 621.3 Application of generally accepted accounting principles.

Each institution shall:

(a) Prepare and maintain, on an accrual basis, accurate and complete records of its business transactions as necessary to prepare financial statements and reports, including reports to the Farm Credit Administration, in accordance with generally accepted accounting principles, except as otherwise directed by statutory and regulatory requirements;

(b) Prepare its financial statements and reports, including reports to the shareholders, investors, boards of directors, institution management and the Farm Credit Administration, in accordance with generally accepted accounting principles, except as otherwise directed by statutory and regulatory requirements; and

(c) Prepare and maintain its books and records in such a manner as to facilitate reconciliation with financial statements and reports prepared from them.

§ 621.4 Audit by qualified public accountant.

(a) Each institution shall, at least annually, have its financial statements audited by a qualified public accountant in accordance with generally accepted auditing standards.

(b) The qualified public accountant's opinion of each institution's financial statements shall be included as a part of each annual report to shareholders.

(c) If an institution disagrees with the opinion of a qualified public accountant required by paragraph (b) of this section, the following actions shall be taken immediately:

(1) The institution shall prepare a brief but thorough written description of the scope and content of the disagreement, noting each point of disagreement and citing, in all cases, the specific provisions of generally accepted accounting principles and generally accepted auditing standards upon which the institution's position in the disagreement is based;

(2) A copy of the institution's final description of the disagreement shall
